ABOUT THE ARTIST

Hi, I'm Traci!

I grew up in Minnesota and now call Billings, Montana home, so the lakes, landmarks and wildlife of both states show up all over my work. About 15 years ago I taught myself digital collage, and I've been in love with it ever since. Every piece is built from layers of scrapbook papers and vintage ephemera, pieced together digitally until a moose, a loon or a jar of wildflowers comes to life.

My art is bright, cheerful and kid-friendly: wildlife, Montana and Minnesota places, florals, whimsical animals, nursery art and pets. It feels just as at home in a lake cabin as it does in a nursery. I'd love to bring a little happy place to your shop and your customers.
