SELECTED PHOTOGRAPHS / 01

Siena at Dusk

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

Old-world warmth, a contemporary point of view

The glow of Siena brings architecture and atmosphere into a refined interior. Warm wood, paneling and a gilded frame create a natural conversation with the photograph.

A starting point for traditional and transitional rooms. Frame selection and final dimensions are quoted for the project.

SELECTED PHOTOGRAPHS / 02

Eat Drink Sleepover

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

A warm welcome at the heart of the home

A top-selling print, Eat Drink Sleepover brings a vivid blue shopfront and an invitation to gather into a richly layered kitchen. Antique wood, tailored upholstery and patinated brass give this breakfast nook a collected, welcoming character.

Consider for kitchens, breakfast rooms and hospitality spaces. Confirm available print sizes and overall framed dimensions for your project.

Aspen Shadows 2

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

A quieter kind of mountain statement

Graphic trunks and shifting shadows bring rhythm to a study, library or mountain retreat. A white mat gives the photograph breathing room against richly textured walls.

Available up to 60 × 40 inches. Size refers to the photograph; matting and frame add to the overall dimensions.

SELECTED PHOTOGRAPHS / 04

Boats on Lake

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

Still water, layered character

Soft reflections and distant hills offer a restful counterpoint to pattern, velvet and collected antiques. An atmospheric landscape for spaces with color and a sense of history.

Consider for a living room, reading room or a layered country-house interior. Confirm available sizes on the artwork page.

SELECTED PHOTOGRAPHS / 05

The Dark Hedges

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

An invitation to linger

An enveloping avenue of trees becomes a focal point in a warm parlour. Its depth and branching forms sit comfortably beside heirloom furniture, generous upholstery and layered textiles.

Explore a framed presentation for a library, sitting room or intimate hospitality space. Sizes vary by photograph.

SELECTED PHOTOGRAPHS / 06

Cedars and Poppies

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

Color with a sense of place

A field of vivid red gives a light-filled room a confident focal point. Natural wood, pale stone and simple upholstery let the color carry the composition.

A colorful option for dining rooms, sunrooms and relaxed gathering spaces. View the artwork page for current sizes and finishes.

Driftwood and Shadows

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

Sculptural light for a contemporary room

Warm coastal light and sculptural driftwood give this restrained interior its focal point. A slim frame and quiet mat connect the photograph with natural oak, pale upholstery and honed stone.

A coastal photograph for contemporary living rooms, studies and serene gathering spaces. Confirm available sizes and final framed dimensions before specifying.

Tuscan Dawn

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

A softer beginning and end to the day

Peach light over layered Tuscan hills brings warmth to a bedroom in sage linen, ivory and dark oak. A single framed landscape gives the king bed a clear focal point without competing with the room’s quiet textures.

Shown in a bedroom visualization with a king bed. Artwork size, matting and frame are selected for the actual wall and confirmed before ordering.

SELECTED PHOTOGRAPHS / 09

Brooklyn Bridge

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

Architecture with presence

Stone towers and sweeping cables bring graphic energy to a tailored city study. Walnut paneling, bronze lighting and richly textured leather give the photograph a substantial architectural setting.

Consider for an urban study, library or dining room. Available print sizes and the overall framed dimensions are confirmed for the project.

SELECTED PHOTOGRAPHS / 10

Water Lilies

AI-created room visualization. Illustrative scale, styling and framing; not an installed client project.

A jewel of color in a collected room

Violet blooms and green lily pads become a vivid focal point against plum walls. Mohair, patterned upholstery and antique walnut make a richly layered setting for a modestly scaled photograph.

An intimate sitting-room visualization. Select the print size, mat and frame around the actual wall dimensions before ordering.

PRESENTATION AND SCALE

The right finish for the room

Begin with the photograph. Then choose a presentation that suits the light, materials and purpose of the space.

Fine art paper

A flexible starting point for a matted and framed presentation. Satin and metallic paper options can be discussed for the selected photograph.

Canvas

A tactile presentation with a softer surface character. Gallery wraps and framed options are selected around the image and the room.

Metal

A clean, contemporary option when the photograph calls for vivid color or a crisp presentation. Discuss lighting and placement before selecting the finish.

Made to fit the composition

Available sizes depend on the photograph’s proportions and resolution. Aspen Shadows 2 is available up to 60 × 40 inches. Confirm the overall framed dimensions before specifying for a wall.

Custom framing, acrylic and other specialty presentations are by inquiry. Frames and mats in the visualizations are styling references; inclusion and pricing depend on the chosen product.

PERSONAL ATTENTION TO YOUR PROJECT

Let’s find the photograph that belongs in your room.

Send a room photograph or design board, the approximate wall dimensions and the mood you want to create. I can suggest a focused selection and discuss size, finish and framing with you.

01

A focused selection

Start with a room brief and a few relevant photographs.

02

A considered specification

Confirm the image, scale, presentation and project pricing.

03

A personal point of contact

I review each order and coordinate production with DuraPlaq in Longmont, Colorado.
